

Quality Policy – QMS002

Cavendish Network Services Limited is part of the Cavendish Group and was established in 2011.

Cavendish are able to draw on a wealth of knowledge stretching over many years and have developed expertise over a wide range of converged technology and networking solutions, delivering quality service and products to a range of public/private sector customers across the UK.

Our policy is to provide telecommunication installation and support services to all types of business, including data network solutions.

Cavendish Network Services Limited comply with all aspects of the BS EN ISO9001:2015 International Standard for Quality and have been Registered with BSI since 2nd April 2013.

We promote close working relationships with our customers and suppliers and take pride in maintaining a number of robust internal processes ensuring we deliver a consistent and professional service.

The Company are committed to continually improve the quality management system by using improvement programs that are achieved by setting a framework of annual quality improvement objectives and targets. These are regularly monitored and reviewed for suitability at Quality Management Review Meetings and publicised throughout the organisation.

As part of this commitment the organisation ensures that all its activities are carried out in compliance to legislation and other compliance obligations relevant to the company.

All personnel understand the importance of quality and abide by the contents of the Quality Management System and its Procedures.

This Policy and the obligations and responsibilities required by the quality management system have been communicated to all employees and persons working on behalf of the organisation. The Policy is available to interested parties on request.
